

# 1997 Marine Corps Gazette Index

In this issue, as in every December issue for the past 18 years, we are publishing our annual index—a listing by subject and author of the articles and book reviews published over the past year. Similar indexes were published in 1966–1979 but occasionally appeared in January rather than December issues. We commend these indexes to your attention as they are a guide to the many articles of lasting value that appear in the *Gazette* over the past 30 years.

Letters are not indexed. As a matter of editorial policy, we almost always publish reactions to articles THREE MONTHS AFTER the article appeared. Although this delay is undesirable, it allows time for most of the readers to respond and enables us to consolidate their reactions. When we violate the "3-month rule" by publishing significant letters early or late, we try to cite these letters in the subject index. We also continue to index selected news items in an attempt to provide you with more opportunities to review *Gazette* information.
